Subject: Arborist Release Letter for Construction Commencement

Dear Mr. Rhinehart,

I am writing to provide my professional assessment and to formally release the commencement of construction activities at the site located at the intersection of 29 Palms Hwy and Bolsa Ave, Yucca Valley, CA 92284.

Following my review of the job site and discussions with the City of Yucca Valley Planning Department regarding the necessary tree removals, I confirm that there are no pending issues related to the construction and landscape plans involving the remaining 8 Joshua Trees on the property waypoint #1569, 1571, 1574, 1575, 1576, 1577, 1578, and 1582.

Regarding the documented 13 live Joshua Trees, it has been determined that the following 5 trees are to be removed with the appropriate permits obtained: Waypoints #1570, 1572, 1573, 1578, 1583. Furthermore, the removal of 3 dead Joshua Trees at Waypoints #1584, 1585, and 1586 is necessary, with the proper permits also required. Please ensure that all regulations and guidelines related to these removals are strictly followed.

Tree protection measures must be implemented for the remaining Joshua Trees to safeguard them during the construction process. This includes physical barriers and guidelines to ensure their health and preservation throughout the duration of the project.

With this letter, you are authorized to proceed with the construction as planned.

Should you require any further assistance or clarification regarding tree care or maintenance during the construction process, please do not hesitate to contact me.

Thank you for your attention to the preservation of our local environment during this project.

Sincerely,

  
Warren A. Miller
